

## 2 people have recommended Joanna

"I had the distinct pleasure of meeting Joanna when she responded to one of our ads in search of translators. Part of the application process involved remote training and evaluation using our proprietary software. Joanna easily navigated the steps, and successfully completed the training stage in a very short time. What makes her stand out is not only her acumen, but her high professionalism, attention and dedication to the work, and her enthusiasm. You immediately realize that you have found a collaborator and a true colleague. Many times we discussed issues not only about translation but also about the processes and systems regarding language and project management in general. She makes the effort to understand both the details of the project and the goals associated with it. She even provides feedback on best practices. It was a revelation and a delight to work with Joanna, and my enthusiasm in finding her was such that I recommended her to other firms. I look forward to working with her again and to seeing her progress in her career. She is a star."

"I have known Joanna in my capacity as translations projects manager at the OFF PLUS CAMERA International Festival of Independent Cinema. She has been an enthusiastic member of our subtitles production team, contributing top-notch translations while working to tight deadlines. Her translations match the highest linguistic standards and she is always eager to face new challenges in such disparate areas as poetry, song or slang rendition. Working with us, Joanna has gained expertise as an audiovisual translator, so if you are looking for a dependable, conscientious and committed professional, she is a safe bet."
